### **Office of Fossil Energy**

[Docket No. FE-R-79-43B]

### **Electric and Gas Utilities Covered in 1995 by Titles I and III of the Public Utility Regulatory Policies Act of 1978 and Requirements for State Regulatory Authorities to Notify the Department of Energy**

**AGENCY:** Office of Fossil Energy  
Department of Energy.

**ACTION:** Notice.

**SUMMARY:** Sections 102(c) and 301(d) of the Public Utility Regulatory Policies Act of 1978 (PURPA) require the Secretary of Energy to publish a list, before the beginning of each calendar year, identifying each electric utility and gas utility to which Titles I and III of PURPA apply during such calendar year. The 1995 list is published here as two separate tabulations. Appendix A lists the covered utilities by State, and Appendix B lists them alphabetically.

Each State regulatory authority is required, pursuant to sections 102(c) and 301(d) of PURPA, to notify the Secretary of Energy of each electric utility and gas utility on the list for which such State regulatory authority

has ratemaking authority. In addition, written comments are requested on the accuracy of the list of electric utilities and gas utilities.

**DATES:** Notifications by State regulatory authorities and written comments must be received by no later than 4:30 p.m. on February 15, 1995.

**ADDRESSES:** Notifications and written comments should be forwarded to: Department of Energy, Office of Coal and Electricity, FE-52, 1000 Independence Avenue, SW., room 3F-070, Docket No. FE-R-79-43B, Washington, DC 20585.

**FOR FURTHER INFORMATION CONTACT:** Steven Mintz, Office of Coal and Electricity, Fossil Energy, Department of Energy, 1000 Independence Avenue, SW., room 3F-070, FE-52, Washington, D.C. 20585, Telephone 202/586-9506.

### **SUPPLEMENTARY INFORMATION:**

#### **I. Background**

Pursuant to sections 102(c) and 301(d) of PURPA, Pub. L. 95-617, 92 Stat. 3117 *et seq.* (16 U.S.C. 2601 *et seq.*, hereinafter referred to as the Act) the Department of Energy (DOE) is required to publish a list of utilities to which Titles I and III of PURPA apply in 1995.

State regulatory authorities are required by the Act to notify the Secretary of Energy as to their ratemaking authority over the listed utilities. The inclusion or exclusion of any utility on or from the list does not affect the legal obligations of such utility or the responsible authority under the Act.

The term "State regulatory authority" means any State, including the District of Columbia and Puerto Rico, or a political subdivision thereof, and any agency or instrumentality, which has authority to fix, modify, approve, or disapprove rates with respect to the sale of electric energy or natural gas by any utility (other than such State agency). In the case of a utility for which the Tennessee Valley Authority (TVA) has ratemaking authority, the term "State regulatory authority" means the TVA.

Title I of PURPA sets forth ratemaking and regulatory policy standards with respect to electric utilities. Section 102(c) of Title I requires the Secretary of Energy to publish a list, before the beginning of each calendar year, identifying each electric utility to which Title I applies during such calendar year. An electric utility is defined as any person, State agency, or Federal agency that sells electric energy. An electric utility is covered by Title I for any calendar year if it had total sales of electric energy, for purposes other than resale, in excess of 500 million kilowatt-

hours during any calendar year beginning after December 31, 1975, and before the immediately preceding calendar year. An electric utility is covered in 1995 if it exceeded the threshold in any year from 1976 through 1993.

Title III of PURPA addresses ratemaking and other regulatory policy standards with respect to natural gas utilities. Section 301(d) of Title III requires the Secretary of Energy to publish a list, before the beginning of each calendar year, identifying each gas utility to which Title III applies during such calendar year. A gas utility is defined as any person, State agency, or Federal agency engaged in the local distribution of natural gas and the sale of natural gas to any ultimate consumer of natural gas. A gas utility is covered by Title III if it had total sales of natural gas, for purposes other than resale, in excess of 10 billion cubic feet during any calendar year beginning after December 31, 1975, and before the immediately preceding calendar year. A gas utility is covered in 1995 if it exceeded the threshold in any year from 1976 through 1993.

In compiling the list published today, the DOE revised the 1994 list (58 FR 65169, December 13, 1993) upon the assumption that all entities included on the 1994 list are properly included on the 1995 list unless the DOE has information to the contrary. In doing this, the DOE took into account information included in public documents regarding entities which exceeded the PURPA thresholds for the first time in 1993. The DOE believes that it will become aware of any errors or omissions in the list published today by means of the comment process called for by this Notice. The DOE will, after consideration of any comment and other information available to the DOE, provide written notice of any further additions or deletions to the list.

## II. Notification and Comment Procedures

No later than 4:30 p.m. on February 15, 1995, each State regulatory authority must notify the DOE in writing of each utility on the list over which it has ratemaking authority. Two copies of such notification should be submitted to the address indicated in the **ADDRESSES** section of this Notice and should be identified on the outside of the envelope and on the document with the designation "Docket No. FE-R-79-43B." Such notification should include:

1. A complete list of electric utilities and gas utilities over which the State regulatory authority has ratemaking authority;

2. Legal citations pertaining to the ratemaking authority of the State regulatory authority; and

3. For any listed utility known to be subject to other ratemaking authorities within the State for portions of its service area, a precise description of the portion to which such notification applies.

All interested persons, including State regulatory authorities, are invited to comment in writing, no later than 4:30 p.m. on February 15, 1995, on any errors or omissions with respect to the list. Two copies of such comments should be sent to the address indicated in the **ADDRESSES** section of this Notice and should be identified on the outside of the envelope and on the document with the designation "Docket No. FE-R-79-43B." Written comments should include the commenter's name, address, and telephone number.

All notifications and comments received by the DOE will be made available, upon request, for public inspection and copying in the Freedom of Information Reading Room, Room 1E-190, 1000 Independence Avenue, S.W., Washington, D.C. 20585, between the hours of 9:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

## III. List of Electric Utilities and Gas Utilities

Appendices A and B contain two different tabulations of the utilities that meet PURPA coverage requirements. As stated above, the inclusion or exclusion of any utility on or from the lists does not affect its legal obligations or those of the responsible State regulatory authority under PURPA.

Appendix A contains a list of utilities which are covered by PURPA. These utilities are grouped by State and by the regulatory authority within each State. Also included in this list are utilities which are covered by PURPA but which are not regulated by the State regulatory authority. This tabulation, including explanatory notes, is based on information provided to the DOE by State regulatory authorities in response to the December 13, 1993, **Federal Register** notice (58 FR 65169) requiring each State regulatory authority to notify the DOE of each utility on the list over which it has ratemaking authority, public comments received with respect to that notice, and information subsequently made available to the DOE.

The utilities classified in Appendix A as not regulated by the State regulatory authority in fact may be regulated by local municipal authorities. These municipal authorities would be State agencies as defined by PURPA and thus

have responsibilities under PURPA identical to those of the State regulatory authority. Therefore, each such municipality is to notify the DOE of each utility on the list over which it has ratemaking authority.

In Appendix B, the utilities are listed alphabetically, subdivided into electric utilities and gas utilities, and further subdivided by type of ownership: investor-owned utilities, publicly-owned utilities, and rural cooperatives.

The changes to the 1994 list of electric and gas utilities are as follows:

### Additions:

Florida Public Utilities Company (FL)  
Michigan Gas Utilities, division of  
UtiliCorp United (MI)

(Public Utility Regulatory Policies Act of 1978, Pub. L. 95-617, 92 Stat. 3117 *et seq.* (16 U.S.C. 2601 *et seq.*)).

The governing body of each Texas  
 municipality exercises exclusive original  
 jurisdiction over electric utility rates,  
 operations, and services provided by an  
 electric utility (whether privately owned or  
 publicly owned) within its city or town  
 limits, unless the municipality has  
 surrendered this jurisdiction to the Texas  
 Public Utility Commission. The Commission  
 hears *de novo* appeals from the decision of  
 such municipalities. These municipal  
 authorities would be State agencies as

defined by PURPA and, thus, have  
 responsibilities under PURPA identical to  
 those of a State regulatory authority.

The municipally owned utilities listed  
 below are not under the commission's  
 original ratemaking jurisdiction:

The governing body of each Texas  
 municipality exercises exclusive original  
 ratemaking jurisdiction over gas utility rates,  
 operations, and services provided by a gas  
 utility within its city or town limits subject  
 to appellate review by the Railroad  
 Commission of Texas. These municipal  
 authorities would be State agencies as  
 defined by PURPA and, thus, have  
 responsibilities under PURPA identical to  
 those of a State regulatory authority.

The following covered utilities within the  
 State of Texas are not regulated by the  
 Railroad Commission of Texas. (The Railroad  
 Commission's appellate authority does not  
 extend to municipally owned gas utilities.)

*Title:* Facility Ground-Water Monitoring Requirements (EPA No. 0959.09). This ICR is a renewal of an approved collection (OMB No. 2050-0033).

*Abstract:* Pursuant to Subtitle C of the Resource Conservation and Recovery Act (RCRA) of 1976, 40 CFR Part 264 and 40 CFR Part 265 establish ground-water monitoring regulations for permitted and interim status facilities, respectively. These regulations establish programs for protecting ground-water from releases of hazardous wastes by land disposal facilities (LDFs).

Ultimately, the EPA will use the information provided by LDFs to make decisions regarding the type and status of monitoring programs, and what corrective actions, if any, must be taken by the LDFs to protect ground-water.

Owners or operators of permitted LDFs must perform detection monitoring. In addition to monitoring, activities associated with detection monitoring include: (1) notifying EPA of statistically significant concentrations of hazardous leachate when detected; and (2) gathering and maintaining records on all data pertaining to ground-water collected during monitoring. If it has been determined by EPA that the concentrations of hazardous waste leachate pose sufficient risk to ground-water, then the LDF must conduct compliance monitoring of ground-water in addition to detection monitoring.

The information collection activities associated with compliance monitoring include: (1) Gathering and maintaining records on all ground-water data and analyses collected during monitoring; (2) notifying EPA of ground-water contamination, the presence of new constituents in the ground water, and instances where unacceptable concentrations of contaminants have been found. In the event that a leak is detected at an unacceptable concentration, the LDF must provide EPA with engineering feasibility plans and reports on corrective action, or provide EPA with all data necessary to establish an alternate concentration limit (ACL).

Owners or operators of interim status LDFs, must establish water-quality assessment programs. The information collection activities associated with the program include: (1) preparing a sampling and analysis plan for monitoring ground-water contamination; (2) notifying EPA of changes to indicator parameter concentrations; (3) submitting a ground-water quality assessment report; (4) gathering and maintaining records on analyses and evaluations conducted under the program; and (5) submitting annual quality assessment reports to the Regional Administrator.

Owners or operators of interim status LDFs seeking exemption or the use of alternative systems of ground water monitoring, must first demonstrate to EPA, in writing, that they pose little or no risk of contaminating ground-water. If low risk is demonstrated, owners or operators of these facilities must continue to: (1) Gather and maintain records of ground-water data; (2) report on the parameters of drinking water suitability during the first year; (3) report annually on parameters
